DIN rail-mounted ELECTRICITY METERS

D300 single phase meter

The D300 is a MID approved DIN rail-mounted single phase 100 Amp direct-connected kWh meter. It is a small compact meter with a pulse output and a large LCD display for monitoring of a circuit on a single tariff. The pulse output can be used with energy monitoring systems such as our ATLAS metering system or a suitable BMS.

The D300 has been designed specifically to be fitted into enclosures with a DIN rail inside and could typically be fitted alongside fuses/breakers in consumer units. The size of the meter is 4.25 modules wide, ~53mm.

The meter is priced from £65.50 plus VAT delivered UK.

D234 100 Amp three phase meter

The D234 is a DIN rail-mounted 100 Amp three phase four wire class 1 kWh meter with a pulse output and a large clear liquid crystal display that provides the kWh consumption for the circuit.

This meter is 6 modules wide, ~75mm.

Priced from £78.00 plus VAT delivered UK this meter is ideal for sub-metering in multi-resident commercial and small office situations and simplicity itself to install.

A single phase model D200 is also available at £45.00 plus VAT delivered UK.

D500 CT operated three phase meter

The D500 is a MID approved three phase four wire DIN rail-mounted programmable kWh meter. It is a single tariff rate, current transformer (-/5A) operated meter with a pulse output and a large LCD display providing the kWh consumption information.

The pulse output can be used with energy monitoring systems such as our ATLAS multi-point metering system or a suitable BMS.

The meter is 6 modules wide, ~75mm, and is priced from £98.00 plus VAT delivered UK.

For information on ATLAS or other types of meter please make contact as below or see our website.
